# WHY BS TRACK

## QUALITY - A STRATEGIC PARTNERSHIP

- **Cross Section Design:** BS Track combined its offer referring to BRITISH STEEL long history of designing track shoe profiles. Depending on the application, the cross section has been optimized to meet the requirements and maximize performance.
- **Chemical Composition:** BS Track cooperate with BRITISH STEEL's specialists for track shoe profiles to ensure that the hardening process at BS Track Plant can be optimally implemented giving BS Track shoes the required hardness and resilience. This combination grants the longest service life.
- **Test Laboratory:** BS Track largely invested in a fully equipped in-house test laboratory. We certify the requirements for hardness, toughness, tensile strength, yield strength, elongation, fatigue strength and every other parameter. Measurements and tests are recorded at BS Track from incoming raw material to the finished product.
- **100% Inline 3D LASER Quality Control:** Through BS Track self-developed 3D laser scanning equipment we measure and record all geometries, tolerances, and other important parameters such as flatness on each track shoe produced.

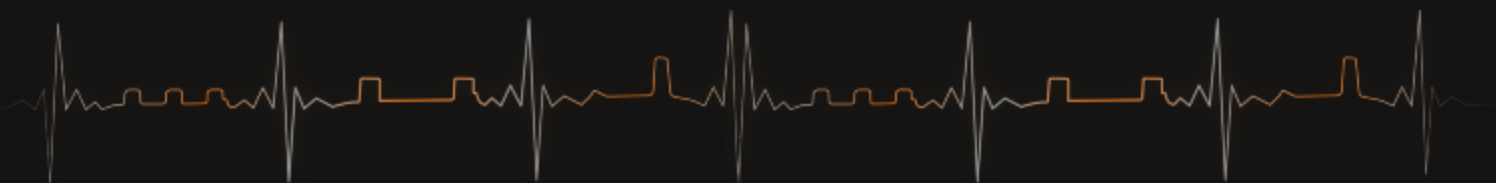

## SUPPLY CHAIN

- **Worldwide Logistic:** Our professional and experienced logistics team ensures the goods reach the customer as quickly as possible and on the agreed dates. Delivery reliability is very important to us. Due to short delivery times and our flexibility together with our supplier BRITISH STEEL we are able to react quickly to your orders.
- **Our Location:** The strategic location grants, starting from raw material incoming to the delivery of our final product the best possible delivery conditions. Large premises are also grating most common available parts to assist supply chain performance.

## OUR UNIQUE SELLING PROPOSITION (USP)

- **Best Quality Steel:** Thanks to our partner BRITISH STEEL we are able to process steel profiles of the best quality into high performance track shoes.
- **Best Product Range:** Based on our diversity and possibilities, we are able to produce any kind of track shoes. Please contact us if your desired profile is not available. Together we can develop the required cross-section and produce it according to your specifications.
- **Best Experience:** Our long-standing experience in the undercarriage segment enables us to deliver only the most valuable products.
- **Best Supply Chain:** Due to our excellent location, we can guarantee you the best possible delivery conditions.
