

TRACK SHOES PROUDLY  
MADE OF BRITISH STEEL

# TRACK

# MAX FORCE

**FOR MINING EXCAVATOR AND DOZER**

exclusively available from BS Track

**BRINGING TRACKS TO LIFE.**

# MAXFORCE SERIES FOR EXCAVATOR

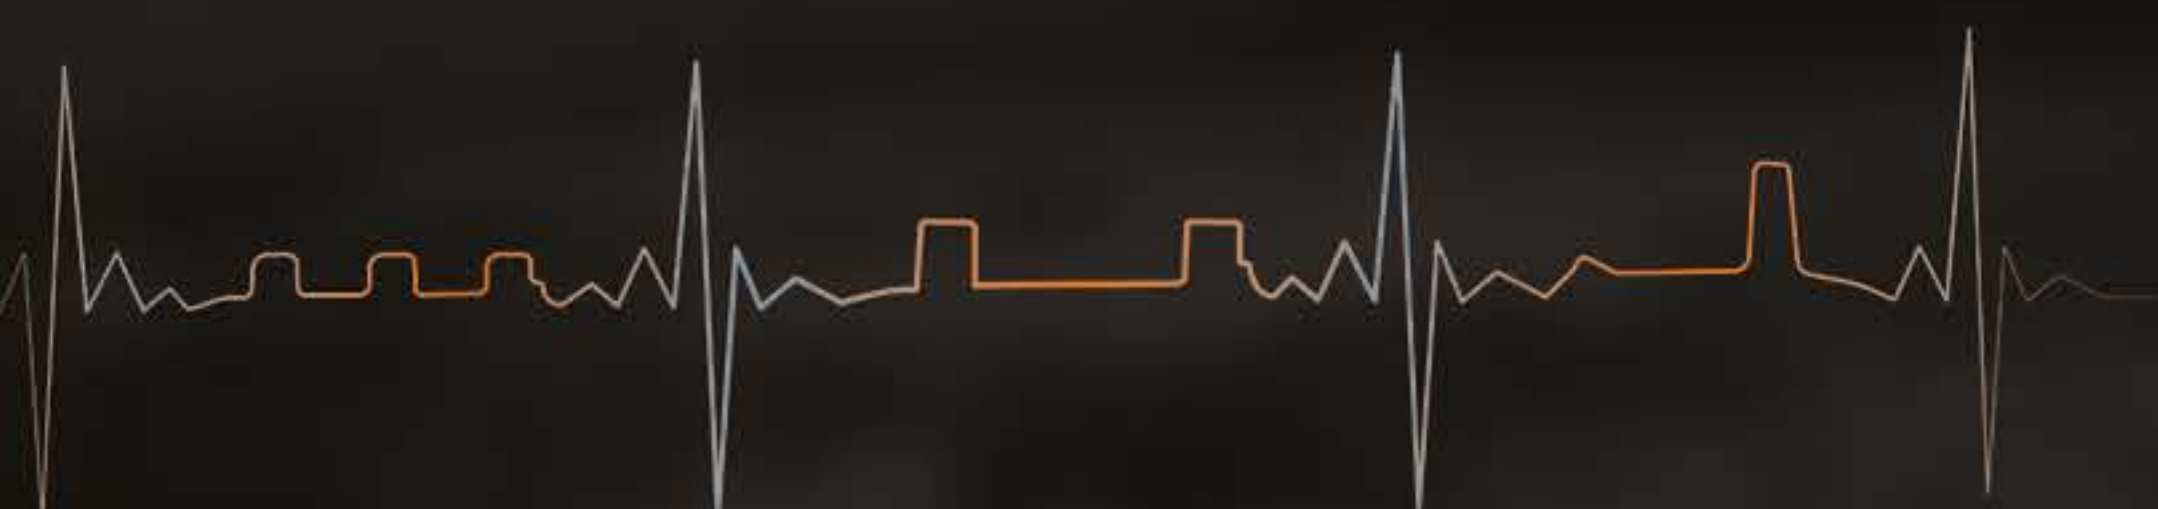

With most **150 / 200-ton excavators** being either forged or cast track shoes, these have limitations in terms of wear life, length offerings, reduced yield strength and ultimate tensile strength

## FEATURES OF THE NEW ROLLED SHOES

- Higher **shoe hardness**
- Consistent **higher dimensional tolerance** rolled profile
- Flexible shoe length options to support **high flotation conditions**
- Improved **material properties** compared to cast and forged shoes, which **MAXIMIZES strength and wear resistance**

## BENEFITS

- Significant increase in **yield strength**
- Better **wear life balance** with other undercarriage components
- Decreased **ground pressure**
- Improved **serviceability**
- Lower **machine operating cost per hour**
- Up to 50% **greater wear life**

# MAXFORCE SERIES FOR DOZER

After listening to customers' needs, we have worked with our partners to develop **an improved dozer track shoe**

## FEATURES

- **Improved trailing edge height** for enhanced bolt head protection
- **Lightweighting design features** to reduce shoe weight
- Taller wider grouser for **greater penetration, traction and wear life**
- Up to 15% increase in **wear life**, reducing operating costs
- Developed for **high wear** applications

### OLD DESIGN

### NEW DESIGN

MAXFORCE DOZER

# HIGHLIGHTS

**Increased wear life**

**Improved bolt head protection**

**Lightweighting design features**

# PRODUCT OVERVIEW

## EXCAVATOR SIZES

PROFILE	PITCH (MM)	SUITABLE FOR
MF15	317	CAT 6015b Hitachi EX1900 Komatsu PC2000 Liebherr R9200
MF20	350	CAT 6020 Liebherr R9250/R9350

## DOZER SIZES

PROFILE	PITCH (MM)	SUITABLE FOR
MF9	240	CAT D9
MF10	260	CAT D10 / KOMATSU D275
MF11	317	CAT D11 / KOMATSU D475
<b>* MF375</b>	<b>280</b>	<b>Komatsu D375</b>

**\*The MAXFORCE D375**

The world's first of its kind. Precision built for the Komatsu D375  
power, performance, and durability
